Educational Requirements for a Coach-Level or Coach/Player-Level Membership

[Click here to see your Coaching Certification status or register for an upcoming CDP Clinic.](#)

Starting in 2018, USA Ultimate has altered the required educational components for a coach or coach/player membership. [Click here for a discussion of this and other upcoming changes to the Coaching Development Program.](#)

To be eligible to purchase a coach or coach/player membership you must complete the following requirements. You become eligible once ALL items below have a green light. The items in the list can be completed in any order.

Known (temporary work-in-progress) technical glitches:

- ***After you upload certificates, some users report that upon revisiting this page, the images do not display and the dot turns "red" again. But the uploaded certs are still in the system, and if you have all of the other requirements completed, the coach level memberships should be available to you.***
- ***The "Remove Button" does not always work. Please ONLY upload the appropriate documents.***

And, please ONLY upload PDFs.

I, attest that:
(Name)

- I will watch all of the educational materials provided below.
- All of the material submitted will be mine.
- All of the answers given on the tests will be my answers.

- **Coaching Clinics OPTIONAL**
 - Level 1 Coaching Clinic
 - Level 2 Coaching Clinic
 - Level 3 Coaching Clinic
 - Note: Level 1 certification required to participate in certain events

Disclosure: IYU is simply conveying the message of the newly implemented USA Ultimate requirements. Thank you for understanding and for continuing to support the growth of our sport at the youth level.
